

North Coast Composites, Tool & Mold Announces \$99 Million Long Term Agreement with Top Tier Aerospace Company

CLEVELAND, OH January 30, 2019 – North Coast Composites, Tool & Mold, a Unitech Aerospace company and premiere maker of tools and molds and state-of-the-art fabricator of composite products specializing in Resin Transfer Molding (RTM), announced today that they have secured a \$99 million 10-year long term agreement with a top tier aerospace company to supply a commercial aircraft program with composite parts . The contract calls for North Coast to manufacture the production mold tooling and the production ancillary tooling in 2019 and move into production in late 2019 through at least 2029.

“We are very proud to have won this program,” said Wayne Exton, CEO of Unitech Aerospace. “With a decade of experience working on complex RTM air-direction and acoustic liner systems for several aerospace manufacturers, the team at North Coast has established themselves as a valuable partner with their exceptional performance in quality and delivery. We look forward to this new addition to our portfolio and are prepared for the growth it will create within the business.”

About North Coast Composites, Tool and Mold

North Coast Composites, Tool and Mold, established in 1976 and located in Cleveland, Ohio, specializes in the development of complex, high tolerance composite parts and are industry experts in Resin Transfer Molding (RTM). In-house capabilities include engineering, tooling, materials and production offering customers a premier turnkey solution. North Coast is a Unitech Aerospace company.

About Unitech Aerospace

Unitech Aerospace provides the aerospace, marine, medical, defense, nuclear and rail industries with composite and metallic structures and components that meet demanding and complex requirements. The company’s growing global footprint is currently comprised of strategically located sites providing local and immediate support to customers. Integrated solutions range from early stage design, rate production, to full-term sustainment making Unitech Aerospace the industry’s trusted lifecycle partner.
