

Unitech Composites Announces Multi-Year Master Agreement with Textron Aviation

HAYDEN, ID, September 26, 2017 – Unitech Composites, a Unitech Aerospace company and leading supplier of complex composite laminates, components and assemblies for the commercial aerospace and defense industry, announced today that it has signed a multi-year Master Procurement Agreement with Textron Aviation Inc., a Textron Inc. (NYSE:TXT) company. The statement of work covered under this agreement includes multiple composite parts for the acclaimed Cessna Citation CJ3 and CJ4 light jet platforms.

“We are excited to begin this new relationship with Textron Aviation as they are a proven leader within the general aviation industry,” said Wayne Exton, CEO of Unitech Aerospace. “The signing of this Master Procurement Agreement, along with receiving the Textron Aviation process and facility qualifications, is a major achievement for Unitech as it reaffirms our strong position in the industry in terms of on-time delivery, our trusted quality and excellent customer service.”

The execution of this agreement will allow Unitech Composites to become Textron Aviation qualified for non-critical composites, composite ducting and interior composites.

About Unitech Composites

Unitech Composites, established in 1979 and located in Hayden, Idaho, are industry experts in complex laminates and components and assemblies, multi-axis machining, close tolerance fabrication and automated hand layup. Unitech Composites is a Unitech Aerospace company.
